PUBLIC WORKS DEPARTMENT

## COUNCIL COMMUNICATION

TO: City Council  
FROM: City Manager  
MEETING DATE: September 7, 1988  
AGENDA TITLE: Establish Rutledge Drive as a Through Street

RECOMMENDED ACTION: That the City Council establish Rutledge Drive as a through street and adopt a resolution amending the Traffic Resolution.

BACKGROUND INFORMATION: Staff received two traffic requests for improving traffic controls on Rutledge Drive. One was at Tejon Street and Rutledge Drive which has no controls. It is a four-way intersection with a cul-de-sac on the east leg. The other request was for Yosemite Drive and Rutledge Drive where there are yield signs on Yosemite Drive. The existing volume on Rutledge Drive is approximately 2,000 vehicles per day. The City's guideline for establishing a through street is that a street must have volumes of approximately 2,000 or more vehicles per day and be used as a minor collector. Rutledge Drive is the only street running north-south between Turner Road and Elm Street between Lower Sacramento Road and Mills Avenue. Since Rutledge meets the criteria for a through street, it is recommended it be established as a through street. This designation will require that stop signs be installed on minor streets intersecting Rutledge Drive (see attached exhibit).
